The L-shaped vinyl wristband is visible, tear-proof and waterproof. It is a single-use model that can be adjusted and closed with a plastic clip. It is used to control access to an event or a defined area. It is suitable for use over several days.

Personalising the vinyl event wristband

The vinyl event wristband is available in various widths and colours. It can be personalized with a text, an image and/or a logo.

If you want to add a logo, please provide us with a vectorized version.

Vinyl wristbands in the medical sector:

- Patient identification: Wristbands can be used to affix patient identification labels, or as handwritten inscriptions using an indelible felt-tip pen.
- Error prevention: Wristbands can be personalized with custom markings: "Allergy", "Do not prick", "Fall risk", with or without your facility's logo. with or without your facility's logo. They alert caregivers, and greatly reduce risks to patient safety
- Casualty triage: Green, yellow, red and black wristbands let you organize casualty triage according to injury severity. You can also personalize them with the name of your rescue unit, for example.
